

Dear Sponsor and Partner,

Opoya is a village in Kenya East Africa, the residents of which are primarily peasant farmers. The children of the village attend school willing to learn, but because their families can't afford it, they are often hungry, wearing broken shoes, torn or dirty uniforms, and without proper general hygiene.

Dorcas Destiny International also supports a school in a Nairobi slum with nearly one-third of the children being orphans. The sponsorship program assists children at both schools and addresses basic needs with regular tangible support. Volunteers of Dorcas Destiny International also travel to Kenya twice annually to take teaching and learning materials and school supplies to both schools, while also delivering on-site services and activities.

Since most families cannot pay the required monthly school fees, your sponsorship is very important to provide every child an education. Your donation will not only support an individual child and his or her family, it also ensures that the schools have sufficient funds to cover their overhead and expenses.

While \$30 may not seem like much compared to the U.S. school system, it goes a long way in Kenya.

Thank you very much for your monthly donation of \$30 to support a child in Kenya East Africa. Your pledge can be paid monthly, quarterly, semi-annually, or annually via CashApp, Venmo, Zelle, PayPal, or via check or money order.

You will receive information on your child once we receive your inquiry.
